## Fire alarm today

The fire alarm went off today during an experiment in a science class. Everyone evacuated and returned to the school only when it was clear there was no fire. The fire brigade inspected the science lab for us. It was explained to students that it was a false alarm and that the school is a safe place. The parents of younger students may want to reinforce the message at home tonight.

## Privacy Policy

The data protection law in Norway changed on 25 May 2018 and we have systems in place to comply with the new requirements. Please contact us at [post@gjovikis.no](mailto:post@gjovikis.no) if you would like to receive a copy of our privacy policy. It aims to give you information on how GIS collects and processes your personal data, including any data you may provide through our website when you submit an application for a school place or sign up for a trial day. The privacy policy also outlines how we may use information that we obtain about you and

your child when they are enrolled in GIS, when you do business with us as a client of GIS, an employee or other person.

It is important that the personal data we hold about you is accurate and current. Please keep us informed if your personal data changes during your relationship with us.

## SFO next year

Please note that we have reviewed our provision of SFO for next academic year. It is important that the cost generated by SFO does not affect the school budget in any way at the risk of the school losing its license. Please find attached an application form for next academic year. All families with children in next academic year's Grade 1-4 who apply by 8 June 2018 are guaranteed a place SFO. All places will be confirmed by the end of June 2018.

## CLUBS END TOMORROW

Please note that tomorrow (Wednesday, 30<sup>th</sup> May) is the last day of clubs this academic year. If you require SFO on the remaining Wednesdays this year, please contact Ms. Shalaginova at [sfo@gjovikis.no](mailto:sfo@gjovikis.no)
