COVID-19 UPDATE

As you may know, neighbouring municipalities have been introducing new measures to control the spread of the infection. The measures include cancelling sports activities and closing schools.

At the moment, we have no information to assume GIS will need to change how it has been operating this academic year or close in the foreseeable future. However, we would like to take this opportunity to remind you that the decision to change levels in the traffic light system and close schools is made by local authorities, including the head doctor for the area, not schools.

Please rest assured that GIS has plans to respond to any change of guidelines. Please bear in mind we may need one day to make appropriate arrangements (e.g. set up rooms in a different way). Classes would then be suspended for one day. Should we be informed during the day that the school has to close the following day, all students who are currently using school devices would be sent home with the devices at the end of the day so that learning can continue uninterrupted. Should the decision to close the school be made after students

have left at the end of a day, we would use the following day (when classes are suspended) to let families collect devices for the children.

Pick up and drop off

Please find below drop-off and pick-up times for all grade levels. Please note that starting this week Grade 10 students use the back door. This is the only change to the routine.

Call for school headphones

A number of school headsets has gone missing. We would be grateful if you could check whether a set was taken home by mistake and if you do happen to find one, please return it to the school. Please find below an image of the headphones.
