Student and staff safety

Student and staff safety is a prerequisite for quality teaching and learning. This current period of uncertainty has the potential to cause stress for everyone. However, there are still things we can do in order to reduce the amount of stress we experience. We would like to encourage everyone to take a Covid test when it is recommended. Let's be caring and try to contribute to a safer school environment for students and staff, which will be more conducive to quality learning.

UDIR inspection

The UDIR inspection took place last week as planned. The inspectors interviewed selected members of the school staff, board, parents and students. We would like

to thank everyone that participated in the interviews and look forward to any feedback you may have for us.

While waiting for the report, we will continue our work to further improve the school environment. Currently, we are revising and developing our safeguarding policy to clearly delineate all stakeholders' responsibilities for students' safety at GIS.

We trust the report will guide us in our further work in this area.

Information evening for Grade 10 students and parents

We are pleased to invite Grade 10 students and parents to an information evening with Ms Tone Breivik, a counsellor at Gjøvik High School, who will present all options available to students completing Grade 10 in Norway. The session will take place at GIS on 30 November from 5:00pm to 6:30pm.

In addition, Grade 10 students and parents are invited to participate in a digital meeting organized by Karriere Oppland Gjøvikregionen with a focus on education at high school level. Attached to this newsletter is an invitation with more detailed information. The organizers would be grateful if the participants could send in their questions in advance. Please email your questions to Mr Armanski by 26 November.
