

STRUGGLING READERS

If you think your child could derive greater pleasure from reading, here are some ideas for you:

- Read **with** them. At any age, reading aloud and listening aloud can be fun and a good way to find topics and genres you have in common
- Model reading yourself and talk with your child about what you're reading
- Enjoy audiobooks and encourage your child to read along with them
- Encourage all reading; any material on any device. Make the most of e-reading apps, online articles, magazines, graphic novels in addition to books.
- Take an interest in what interests your child and read about it. Share articles on their favourite hero, sports teams, computer games, or pull out a cookbook and explore recipes together

Reading becomes rewarding when you provide opportunities for your child to explore the things they like and enjoy the adventure together.

GIS offers many opportunities for reading. Children enjoy the school library, their class libraries. They have access to [Epic online library](#), Reading Eggs as well as the Scholastic Book Club.

Happy reading, Mrs Rasen
