After-school program (SFO) survey for grade 1-3 guardians

We are in the process of evaluating our after-school program (SFO). To make informed decisions, we need information on your needs for SFO next academic year. Please share the information with us via this [survey](#). It only takes a few minutes to complete.

This survey is strictly for internal use. It is anonymous, no personal information is collected and none of the questions are linked in any way.

Movie Day (11 February)

With schools in Gjøvik returning to code green, GIS Student Council is finally able to host events which have been postponed due to Covid-19. One of these events is Movie Day.

It will take place on Friday the 11 February; individual classes will be watching movies in their respective rooms, which they have voted for. The Student Council will be selling hot chocolate for 10kr each, along with popcorn for the same price. Students are allowed to bring candy or drinks like soda from home, as long as the worth of the food does not exceed 30kr in total. Lower PYP (G1-3) can bring soft, while upper PYP (G4-6) along with MYP will be able to bring sparkling water and sodas.

Thank you in advance for your support!

Feel free to contact us by mail: student.council@gjovikis.no if you have any queries.

Kind regards,

Roshan Prabhu

Personal Project Bracelet Sale

In grade 10, every student designs and completes their own "Personal Project". My personal project is creating a website to inform people about the damage the rainforest is facing as well as creating homemade bracelets to sell. The profit from these bracelets will be donated to organizations making a change towards our approach to rainforests. I previously had a bracelet sale in December 2021. Since then, I have created more bracelets. Therefore, on Wednesday 9th February I will have another sale. This is happening next to Mr Armanski's office starting at 15:10. One bracelet costs 50kr. When paying you need to have either cash or Vipps me (number will be provided there).

If you are more interested in this topic here is the website link:

Reminder for Grade 10 students

This is to remind students in Grade 10 and their parents that the high school application system VIGO is now open and students can submit applications to selected high schools. Please ensure your child has either Bank ID or Min ID to be able to access the system. The deadline to submit applications is 1 March 2022. Please note that the deadline falls during our break, so please contact the school before the break if you need help.

Let's grow together!

In this new section of the weekly newsletter, we would like to invite the GIS community to share interesting resources about education and parenting. Have you read an interesting book or article? Have you watched an inspiring video? Have you seen a thought-provoking image? Don't keep it to yourself! Let us now and we will share it in the newsletter. Please email the link and a brief description to Mr Armanski at adam.armanski@gjovikis.no. Let's help each other broaden our horizons and grow together!

This week, we would like to share with you a PARENT'S PICK. Ms Seeland recommends [Huberman Lab](#). The lab releases podcasts which discuss science and science-based tools for everyday life. New episodes are released every Monday. Happy listening!
